

FAMILY FUN LIST: MARCH 2023

Creating connections between you, your family, and our community

Carlsbad Flower Fields:

This local favorite attraction reopens on March 1st! Check out this list of activities to find more interesting ways to enjoy the beautiful spring blooms. Tickets must be purchased online in advance.

Monument Valley:

This app guides users through quests in fantastical geometry based architecture that include discovering hidden areas and mysterious monuments by reshaping the world with the touch of your finger.

Carlsbad Aquafarm:

Love fresh oysters? Tours include a discovery walk, a lesson about growing and harvesting oysters, and a shucking and tasting experience at the end! Offered 7 days a week and must be reserved in advance.

Emotional ABCs:

An evidence-based social emotional learning program that helps children to understand their emotions in order to make better decisions. Aimed at ages 4-11, the program is very engaging and interactive.

Spoonful of Comfort:

A creative and thoughtful care package full of gourmet goodies. Baskets include different types of soups, cookies, and other comforting foods and ships to all 50 states.

Gabb Wireless:

A nationwide carrier that provides child safe cell phones and watches without internet or social media connectivity to help ease parent worries about their child having their own device.

Sand N Straw

Lunchbox Challenge: An eBook including 21 lunch box recipes for \$21 to refresh daily lunches for your family! Developed with two nutritionists to help get everyone involved in healthy eating.

Big Life Journal:

A list of 13 favorite educational games for children, including digital and physical formats and even a few that can be played on the playground! Aimed at a variety of ages.
